### REACH statement

The requirements arising from regulation (EC) No.1907/2006 (REACH) are well known to MAGNETEC.

MAGNETEC GmbH is a manufacturer of inductive components, thus – in the nomenclature of REACH – a so-called ‘downstream-user’.

The products we supply to you are solely non-chemical products - so-called ‘goods’. Moreover and under normal application conditions our goods do not release any substances.

This is why MAGNETEC GmbH is not obliged for registration nor for issuing material safety data sheets.

We will immediately inform you corresponding REACH article 33 if any substance of content (as from a content of > 0,1%) in our goods will be classified ‘alarming’ by the ECHA.

However, we do not expect such an incidence.

We will take all necessary steps to keep the ability to supply the whole range of our products furthermore.
